

REPORT BY SINGAPORE

Agri-Food & Veterinary Authority

Briefing Officer: ONG Ai Khim

PRESENTATION OUTLINE

1. Phytosanitary certificates issued
2. Types of phytosanitary certificates
 - watermarked
 - non watermarked
3. Features of phytosanitary certificates
4. Outcome from the workshop

Phytosanitary Certificates

- The Agri-Food and Veterinary Authority (AVA) issues approximately 15,000 phytosanitary certificates annually
- Of these, about 11,000 are re-export phytosanitary certificates
- Phytosanitary certificates are accepted by 100 plus destinations, mainly to Australia, Brunei, Canada, China, EU, Indonesia, India, Japan, Malaysia, etc
- We received approximately 40,000 phytosanitary certificates mainly from Malaysia, China, Thailand, Indonesia, etc

TYPES of PHYTOSANITARY CERTIFICATES

1. Watermarked certificates

- Effective since 1st September 2009
- Accepted by all countries except the EU, Reunion Island and Turkey (for food produce)
- Has security and watermark features
- Electronic signature of issuing officer

2. Non watermarked certificates

- Manual signature of issuing officer
- Manual stamp of crest

OUTCOME

1. Have a better understanding of ephyto concept, regulatory and technical issues
2. Know what are the protocols, terms and codes that need to be harmonised and how to harmonise
3. The preparations required for electronic certification
4. More information on the generic IPPC endorsed ephyto system
5. Factors to consider for cost benefit analysis

THANK YOU
