

Country Work Plan Report

Country : CAMBODIA

Mr. Phen Phearun
Mr. So Thavrith

SALB workshop 2012 - Penang, Malaysia

Rubber statistics (2011)

	Estates	ELC	Smallholdings	Total
Planted area (ha)	50,715 (45%)	66,459 (31%)	95,930 (45%)	213,104 (100%)
Productions (tones)	26,055 (50.8%)	0	25,284 (49.2%)	51,339 (100%)
Producers (no. / %)		-	-	-

SALB workshop 2012 - Penang, Malaysia

Important rubber disease(s)

No.	Disease (common name/pathogen)
1	Oidium Leaf Fall (<i>Oidium heaveae</i>)
2	Colletotrichum Leaf Fall (<i>Colletotrichum gloeosporioides</i>)
3	Pink Disease (<i>Corticium salmonicolor</i>)
4	Panel Necrosis (<i>Fusarium solani</i>)
5	Phytophthora Leaf Fall (<i>Phytophthora palmivora</i>)

SALB workshop 2012 - Penang, Malaysia

South American Leaf Blight

- Available expertise:

Particular	Name	Organization	Contact
Trained personal on SALB:	-	-	-
Personal exposed to SALB:	Dr. Yin Song, Mr. Phen Phearun	CRRRI	crri@camnet.com.kh
Personal who attended workshop on SALB:	Dr. Yin Song, Mr. Phen Phearun	CRRRI	crri@camnet.com.kh

SALB workshop 2012 - Penang, Malaysia

South American Leaf Blight

- Diagnostic facilities expertise:
 - For CRRRI, there is no SALB Diagnostic Laboratory yet. This Laboratory will be established soon in the future with the technical support of the experts from the IRRDB member countries and the financial support from concerned organizations if possible.

SALB workshop 2012 - Penang, Malaysia

Past activities on SALB

- Research – plant breeding
 - 11 CMS clones had been introduced into Cambodia in 2009. However, only 9 clones (CDC 312, CD 1174, CDC 56, FDR 4575, MDX 607, PMB 1, FDR 5665, FDR 5788 and MDX 624) have been successful grafted.
 - All CMS clones are still in the process of multiplication. A CMS Large Scale Clone Trial will be established after the multiplication.
- Training experience
- Public awareness programme
 - The information on SALB had been published in CRRRI Newsletters and Information bulletin Volume 2, Issue 4, July-August 2011.

SALB workshop 2012 - Penang, Malaysia

Past activities on SALB (cont.)

- Training programme in country
 - Till now, there is no specific training program on SALB, but there was a workshop in June 3, 2011 in which SALB was presented to the researchers, agricultural officers and rubber planters.
- Availability of trainers and training material(s)
 - DVD on SALB which was circulated by IRRDB Liaison Officer during IRRDB annual meeting in 2008.
 - PowerPoint presentation on SALB received from the workshop on Rubber Tree Breeding in Brazil in 2011.

SALB workshop 2012 - Penang, Malaysia

Specific Training Programme On SALB

- Conducted previous
- Plan on Training Programme
 - There will be a presentation on SALB for the researchers and agricultural officers.
 - Leaflet, Pamphlet and Newsletter on SALB will be published and distributed to the concerned parties.
 - The DVD on History, biology, diagnosis and management of SALB (concept & script: Dr. C.K. Jayasinghe) is in the process of translation from English to Khmer language.

SALB workshop 2012 - Penang, Malaysia

Legislation and Law

- Sub degree No 15, dated 13 March, 2003 on Plant . There are 9 chapters and 38 articles.

There are five Prakases under the above Sub degree:

- Prakas on pest list
- Prakas on plant quarantine materials
- Prakas on plant quarantine officer uniform
- Prakas on fee charge for pest treatment
- Prakas on inspection fee

SALB workshop 2012 - Penang, Malaysia

Recommendation

- Collaboration with the organizations working closely with the rubber plant protection such as IRRDB, ANRPC, Michelin, FAO...etc.
